Selected List of U. S. Government Publications on Employment and Careers.

Each year the U. S. Government publishes a number of documents on employment and careers. The following titles are a selection of career-related U. S. documents published within the past five years. Publications on the subject of career education are not listed.

The list is headed by a general category, and is then arranged alphabetically by subject. Unless otherwise indicated, the publications are located in the Documents Collection on the third floor of the Library. The letter/number combination in the left column of the list is the Superintendent of Documents classification number by which each publication is shelved in the Documents stacks. Documents may be checked out for two weeks.
